

Electrical and Electronics Measurements and Instrumentation

Electrical and Electronics Measurements and Instrumentation has been developed to cater to the requirements of a compulsory course for students of Electrical Engineering and allied branches. Owing to the rapid advancements taking place in modern electrical and allied industries, and its interconnection with power systems, the subject of electrical and electronic measurement is gaining an ever-increasing importance. The text, with a blend of theoretical and analytical approach, and examples and illustrations, will suit the requirement of a student, a practitioner as well as those only preparing for competitive examinations.
