

Synthesis, Characterization, and Single Crystal Structure of 4-(3-Methoxy-4-(Prop-2-Yn-1-Yloxy)Phenyl)-2,6-Dimethyl-1,4-Dihydropyridine-3,5-Dicarbonitrile

Scientific Essay from the year 2010 in the subject Chemistry - General, language: English, abstract: This paper deals with the synthesis of some novel 1,4-Dihydropyridine derivatives. The 1,4-Dicyanopyridine (DHPM) derivatives have been synthesized through novel synthetic process. The synthesized compound was well characterized by IR, ¹H NMR and ¹³C NMR, Mass spectrometry. To know the absolute configuration of the synthesized compounds, X-Ray crystallography study was also performed by developing the crystal of the compounds.
