

The Fisheries Exhibition Literature (Volume 11)

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1884 Excerpt: ... OYSTER CULTURE. CHAPTER I. Natural History. *Ostrea edulis* is the Latin name for the common oyster of the present day. The American Blue Point and the Portuguese oyster belong to a different family, their generic name being *Gryphcea*. They are both molluscs, and are called Lamelli-branchiata, a name having reference to the delicate membraneous gills, commonly called the beard. As every one knows, there are two sides to an oyster; one is convex and the other nearly flat. They are closed by a strong adductor muscle, which is attached to both valves. They open by means of an elastic ligament, which is so disposed that when the valves are opened or closed it is either stretched or compressed. When the oyster dies or when the adductor muscle is severed, the shells immediately open, or gape, as it is called. An oyster on examination will be found to consist of two parts tolerably distinct from one another. They are--1. The mantle or beard. 2. The body. The former consists of a delicate fringe of membraneous VOL. XI.--E. 25. T fibres, divided into lobes with four similar striped leaves having radiating capillary tubes running throughout their substance. The mantle varies in colour from a very light greyish-brown to black, according to the variety of the oyster and the food upon which it has been living. As a rough rule it may be stated that the lighter the colour of the beard, the better the quality of the oyster. This however does not apply to green-bearded oysters, which are of exceptional character. The beard is one of the most important organs that the oyster possesses, and many are the functions that it is called upon to perform. Primarily, it takes the place of the lungs in

higher animals, the delicate tubes running through it favour the interchange of g...
