

Monkey Tales

This illustrated book for beginning readers is only six chapters long. Its subjects include losing teeth, digging tunnels, observing the work habits of ants, and swinging on vines; all high interests for the children in its target audience. Mee-key is bored and sad. Mama-mo is having a busy day, and his older brother can go everywhere and do anything. Why does it take so long for a small monkey to grow bigger? However, Mee-key decides that being little has some advantages when his older brother can no longer fit on their mothers lap during a thunderstorm. Sometimes I like to be little, and sometimes I want to be big, he concludes. Little and big are both good. But when it storms, Im happy to be little. The author is a mother of two grown daughters and a retired teacher with two degrees in elementary education.
