

Matilda Rescues the Robot

Something is terribly wrong with that poor robot out on the playground, and she's starting to panic! Matilda and her cousin Jack know they have to do something quickly to help her before she destroys the slide, but what? While other kids are waiting impatiently and the line just keeps getting longer, that frantic robot is about to have a meltdown. Matilda is a tech-savvy girl who is friendly and likes to solve problems, but she's never encountered a challenge like this before! This 42-page picture book is written in verse for children ages 4 - 8.
